Attention: Mr. Wm. Everett Medling

Gentlemen:

The enclosed sketch shows the proposed layout for grillage above the Penthouse roof to support installation of antennae. The purpose of the sketch is to indicate the area required and not the framing support. Your staff should submit their analysis of the framing for review. One possible alternative is to construct a concrete slab working roof over the roofing system.

The suggestion made by your staff to construct this grillage "as needed" has been reviewed and is not acceptable.

Sincerely,
